Fin 3:22 PM

Welcome to your first investing lesson! 📊 Let's start simple: Do you know what an index fund is?

Yes, explain anyway | No, teach me | Skip to advanced

3:23 PM **You**

No, teach me

Fin 3:23 PM

Perfect! Think of an index fund like a basket of fruits 🍎🍊🍋...

🍎 Single Stock
Higher Risk

VS

🧺 Index Fund
Lower Risk

🧺 = 🍎 🍊 🍋 🍇 🍓 🍌 🥝

Fin 3:24 PM

Instead of buying one apple (stock), you buy the whole basket. If one fruit goes bad, others are still fresh. That's diversification!

Fin 3:24 PM

Quick quiz: Why is a basket safer than a single fruit?

A) More vitamins

B) Less risk if one goes bad

C) Tastes better

3:25 PM **You**

B) Less risk if one goes bad

Fin 3:25 PM

🎯 Exactly! You're getting it. Ready to see how this works with real numbers?

Show me the math
